MBCA Central Florida Presents...

## Mercedes, Manatees and Pancakes!

Join us on February 10<sup>th</sup> as your MBCA Central Florida Section embarks on a fun morning of cars, Manatees and yes, PANCAKES, at De Leon Springs State Park.

Ponce De Leon rediscovered his youth here, in a place inhabited by indigenous peoples for more than 5,000 years.

Once called Acuera or “Healing Waters” by the Timucua who inhabited the area, De Leon Springs is a place to cool off in the clear waters, roam trails through lush subtropical forests that feature massive old-growth Bald Cypress trees and immerse oneself in the rich history of the area.

Enjoy The Spanish Sugar Mill and Griddle House, known for tableside griddles where pancake aficionados can create their best using the provided batters, stir-in ingredients and toppings. No one walks away hungry from THIS...

Take the ECO Boat tour and view the manatees...
